

Lawyer in Chilliwack

Lawyer in Chilliwack - Our office offers services and advice in addition to representing our clients in both private and public sectors whose activities are subject to environmental regulation. We have a extremely specialized environmental skill in a broad range of legal disciplines. Our specialized environmental law practitioners work directly with professionals in corporate/commercial law, municipal law and litigation.

We provide project management and strategic environmental advice, since we know that our clients need to balance solid business decisions with sound environmental practices. We act as counsel to proponents of major infrastructure projects during environmental assessments.

Our firm provides legal recommendation and offers regulatory intervention training which goes beyond what various offices are given by the majority of firms. Through seminars and field rehearsals, we prepare clients for probable regulatory intervention in order to help avoid enforcement procedures.

We offer counsel to groups making corporate transactions of varying size and includes the purchase and sale of assets, shares, and related finances.

The assistance we offer in brownfields redevelopment consist of tax incremental financing; initiating and processing all required applications and approvals; engaging and overseeing consultants in order to prepare remedial action plans; Records of Site Condition and/or Site Specific Risk Assessments; and liaising together with Ministry of Environment and municipal officials.

Our lawyers give practical and creative solutions for handling regulatory inspections and investigations. We help clients to prepare for possible future investigations. Our skilled litigators defend clients charged under provincial, federal and municipal environmental and associated legislation.
