Trademark Lawyer Chilliwack - A trade-mark establishes your company's visible identity. A trade-mark distinguishes your company's products and services from those of your competitors. Your company's reputation is built and maintained on its brand, its foundation. Our office knows that a company's trade-mark is among its most-valuable assets. From package design to advertising to product development, a significant amount of resources are invested in protecting and developing a company's brand.

We offer all assistance related to trade-marks. We conduct searches to make sure that a trade-mark is obtainable for use and registrable. We file and prosecute trade-mark applications. And we actively implement trade-mark rights versus infringement. Our company can even assist with worldwide trade-mark applications through our established global network of trade-mark agents.

We provide trade-mark validity and infringement opinions, and trade-mark registrability searches and availability searches. We provide trade-mark registrations, comprising the preparation and prosecution of trade-mark applications. We even oversee foreign trade-mark applications.

A trade-mark opposition involves the cancellation proceedings of registrations, for non-use or other reasons and opposing the registration of confusing trade-marks by various entities. When infringement results in litigation, our trade-mark litigators would represent our clients during infringement and domain name disputes.
