

Patent Lawyers Chilliwack

Patent Lawyers Chilliwack - Our teams of Intellectual Property lawyers are known for its innovation and excellence in the several services associated to acquisition, commercialization, and enforcement of intellectual property assets.

In our team; we have more than 90 experts, with knowledge in three main services: Business, Prosecution, and Litigation. Our legal practice focused on intellectual property rights is among the very best within the country. Our intellectual property team has knowledge in the areas of patents, designs, trade-marks, trade secrets and copyrights. Our litigators are amongst the very best in the world.

Our intellectual property team's knowledge comprises audits, due diligence, portfolio analysis and other connected services which are part of financing and corporate transactions. We are experts in the assessment of technology for intellectual property protection, including techniques for portfolio development involving procurement of rights, licensing and commercialization techniques, and defensive and offensive litigation.

Our team consists of patents and trade-mark agents, technical consultants and intellectual property lawyers. We have practical experience and strong backgrounds in engineering and scientific sectors. In science the team has knowledge in biotechnology, biomechanics, biochemistry, endocrinology, food science, chemistry, life sciences, genetics, immunology, microbiology, molecular/cellular biology, pharmacology, physics, physiology, neuropsychology, neurophysiology, organic chemistry, and toxicology. In engineering disciplines, team members excel within the subsequent areas: chemical, aerospace, biomedical, computer science, industrial, civil, material science, metallurgy, electrical and mechanical.
