

Criminal Law Firms Chilliwack

Criminal Law Firms Chilliwack - It is clearly essential that each one of our clients maintain their intellectual property and their rights behind it. Our aim is to quickly and efficiently handle the misappropriation and misuse of the intellectual property that belongs to our clients. We provide counsel in situations dealing with the leak of confidential information, trade secrets, copyrights, registered designs, trademarks and patents. Additionally, we also handle the personality rights, anti-piracy matters, commercial disputes and defamation using litigation.

Our office and lawyers are especially well-versed in patent problems, especially within the fields of mechanical, pharmaceutical and telecommunication sectors. The several copyright violations from world wide web use, comprising software, music, artwork, and television rights which we will work through fast so as to help you avoid further exploitation. Trademark and competition matters are normally handled making use of litigation.

Our firm's knowledge concerning intellectual property fused with the skills of our well-seasoned litigation lawyers makes for a formidable combination. Our clients can depend on us to act for them at all levels of the Canadian courts along with worldwide tribunals.

Our company has many highly educated solicitors, and patent and trademark agents, who work closely along with our property litigators. As a company, we have commercial knowledge within technology transactions. This makes certain we have an additional set of skills which is helpful should a case get settled before going to trial. The support that we provide our clients is creative, time-efficient, and above all, effective.

To be able to achieve and meet all of our client's objectives and goals, litigation are often not the only way utilized. We normally choose alternative and cost effective and efficient ways in order to meet the needs of the client. The main goal is to be able to reach our clients' goals as painlessly and quickly as possible.
