

Immigration Attorney Chilliwack

Immigration Attorney Chilliwack - There is an increasing concern about various privacy matters today and the complexity of new privacy legislation. The individuals working within the field, plus the organizations involved in biotechnology and information technology have different legal needs. So do people who rely on technology so as to secure a competitive advantage for their business, or simply to be able to work in daily operations. Our Technology, Privacy and Intellectual Property lawyers assist clients in maximizing the use of intellectual property in their business operations. Our objective is to create value for our clients.

We provide various services which deal with biotechnology, intellectual property and privacy technology on a domestic and international basis. The assistance which we provide to our clients comprise trade-marks, copyright, privacy, commercialization, e-commerce, domain names, information technology, intellectual property and operational problems.

Intellectual Property Services:

- Copyright
- Industrial Designs
- Licensing
- Trade Secrets
- Trade-marks

We assist clients in maintaining, enforcing and obtaining intellectual property rights on a regional, national and international scale. Our clients come from different industries like for example entertainment, automotive, telecommunications and manufacturing.

Technology Assistance:

- e-commerce initiatives
- development, protection, licensing, distribution and sale of technology
- acquisition of technology

To both users and suppliers of technology, we advise numerous financial institutions and venture capitalists in structuring loan transactions. We can even assist companies with their confidentiality agreements, internet usage and computer system policies, consulting agreements, outsourcing arrangements, employment agreements, source code escrow, joint ventures and strategic alliances.

Privacy Services:

To ensure compliance with privacy legislation, we help many organizations, employees, contractors and suppliers. We are able to help several companies with their personal information management systems: crafting privacy and policy procedures, advising with respect to use, collection and disclosure of personal information. We evaluate Privacy Impact for clients' businesses or organizations.
