

Civil Litigation Lawyer Chilliwack

Civil Litigation Lawyer Chilliwack - When a business goes through financial problems, it is vital to choose the right team to help your business through the essential processes. These can consist of business restructurings, insolvencies and bankruptcies. Our Business Restructuring and Insolvency Team has a wealth of knowledge to help you handle these situations. Our lawyers are uniquely positioned to give representation and recommendation, leading to timely, effective, and strategic solutions.

We work with business enterprises within industries like airline, automotive, biomedical, communications, entertainment, construction, funeral, financial services, insurance, healthcare, manufacturing, marketing, mining, steel, retail, technology, natural resources, and real estate. Our lawyers can assist you with the complexities of cross-border proceedings administered under either Chapter 11 of the United States Bankruptcy Code or the Canada Companies' Creditors Arrangement ("CCAA"). We have extensive experience with domestic and multi-national business reorganizations and restructuring, whether court-supervised or informal. Bankruptcy and Insolvency restructuring legislation in Canada and the U.S. have a similar debtor-in-possession focus; then again, the laws of the two jurisdictions are different enough to need individuals involved in cross-border proceedings to be well-informed regarding both jurisdictions. In recent years our lawyers have advised intermediaries and stakeholders in many of the biggest restructurings and insolvencies under the CCAA, the Bankruptcy and Insolvency Act ("BIA") and the Winding-up and Restructuring Act.

Timely access to the needed professionals could tip the scales in favour of a positive outcome during business restructuring and insolvency. Our team draws upon the breadth and depth of different skilled members within our global office in all legal fields connected to business reorganizations. Our company has experts in banking and securitization, mergers and acquisitions, labour and employment, public and private equity, real property and intellectual property, and governmental relations. In cases of insolvency requiring advocacy before trial and appellate courts, our team provides expert litigators.
