

Impaired Driving Chilliwack

Impaired Driving Chilliwack - Patents are normally the most valuable assets which a business could have. It is vital that the patent portfolio is secured and maintained so as to make certain that the business can continue to expand and even succeed.

We have among the biggest and most well respected patent teams with extensive knowledge in procuring patents and protecting them. In addition, we can assist our clients in leveraging patent issues with efficiency and skill.

Our team is comprised of a variety of different experts, including technical consultants, patent lawyers and patent agents. Several of our technical consultants have a Ph.D in either an engineering or scientific discipline. Some examples of the areas in which we have skill are aerospace, chemical, biomedical, civil, computer science, electrical, metallurgy and material science, industrial, mechanical, biochemistry, biomechanics, biotechnology, food science, chemistry, genetics, endocrinology, life sciences, immunology, neuropsychology, microbiology, neurophysiology, molecular/cellular biology, pharmacology, organic chemistry, physics, toxicology, and physiology.

utilizing our wide variety of technical skills together with a combination of acute business acumen, we can provide a comprehensive and clear understanding of various technical complexities. Our experience, expertise and skills would enable us to help our clients achieve optimal patent asset value. We are here to offer effective assistance and recommendation about licensing agreements and the negotiation of technology transfer along with the enforcement of intellectual property rights.
