

Crown Attorney Chilliwack

Crown Attorney Chilliwack - Our firm represents and advises various large and small, private and public companies regarding business matters. We also advise non-profit entities and religious corporations.

We work closely along with our clients so as to help them form publicly traded and privately held corporations, limited partnerships, limited liability companies, partnerships and sole proprietorships. We also help our clients and their accountants to make sure that their business transactions are structured in a way that is the most tax advantageous. We take into account both longer-term estate tax implications and short-term income tax considerations. In our work with small and large acquisitions and mergers, we think about tax, legal and business implications while structuring acquisitions and de-acquisitions in the way most beneficial to our clients.

We are experienced in structuring equity arrangements, like re-capitalizations, for businesses raising capital. Our aim is to guarantee compliance with applicable laws in association with SEC, securities offerings and state regulatory compliance.

Other services that a company could provide to our clients include: negotiating, drafting and reviewing capital business agreements and other arrangements such as sales and manufacturers' representative agreements, joint venture agreements, confidentiality, non-competition and licenses agreements, employment agreements and distribution agreements. We are expert at drafting and preparing stock options, stock awards and phantom stock arrangements for select employees.

We have knowledge in assisting family businesses with the transition of ownership to a group of employees or a later generation.
